

CREATE AND CONFIGURE IBM CLOUD SERVICES

Create a Database in Cloudant DB

Team ID	PNT2022TMID14295
Project Name	Gas leakage Monitoring and Alerting System for Industries

Step 1: login into IBM CLOUD account

Step2: On the top left corner click on RESORCE LIST

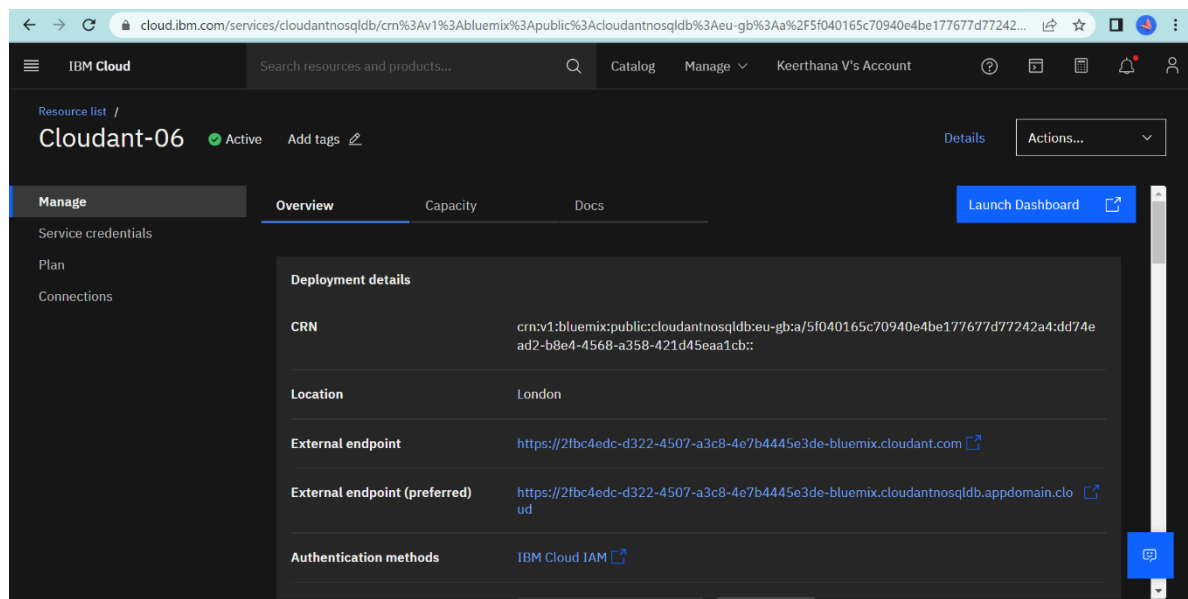

Step 3: Search for Database option then click on drop down arrow

Step 4: Then click on cloudant account available

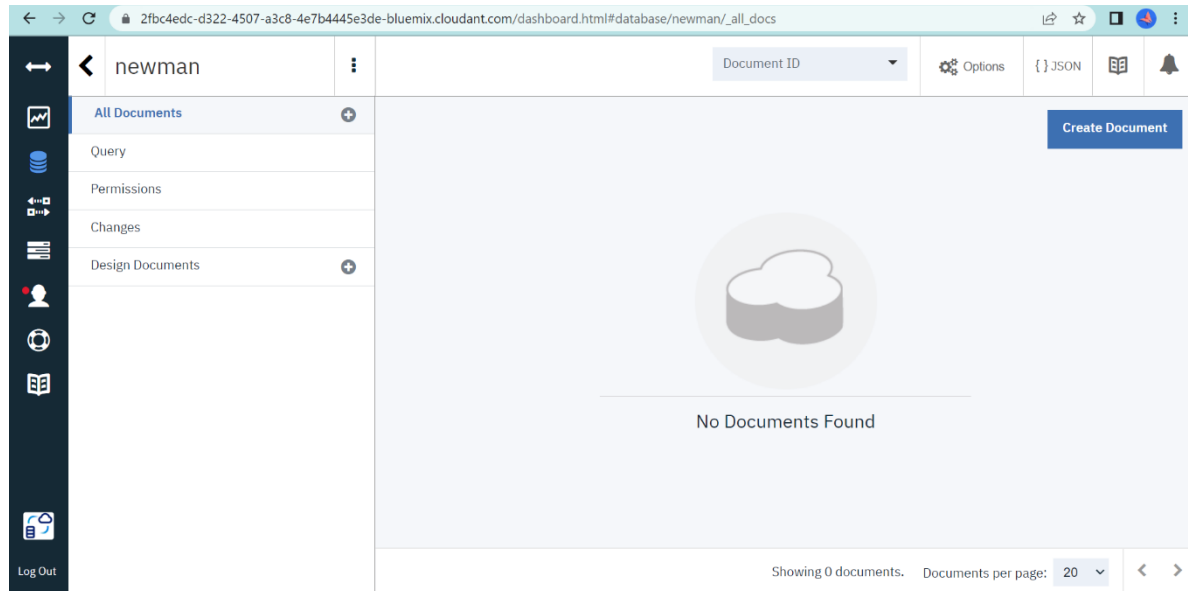

Step 5: Now, cloudant window appears then click on launch dashboard on right corner

Step 6: click on create database on right corner then provide the name for database and check the -partitioned -recommended for most workloads option then click on create

Step 7: Finally, cloudant DB was successfully created

Created a new database “newman” by clicking on create database button.

Thus a database in Cloudant DB is created successfully.
